

THERAPEUTIC FOOTWEAR CATALOG

SureFit - Your Best Fit Forward

SureFit believes that changing times demand action. Our actions have focused on re-envisioning how to make ordering, dispensing and billing shoes, inserts and braces as simple as possible. Our partner commitment is to use our resources to ensure your success.

Re-Envision Shoe Selection

How many different shoe styles do I need?

Choice. We balance style concerns with foot health. Our PDAC approved offering fits 95% of all patients by offering different lasts and widths to accommodate everything except custom shoes. In addition, we have increased our shoe inventory so your patients won't have to wait for their orders. Our goal is to deliver the right shoe on time!

Re-Envision Practice Technology

Can technology make my programs work better?

Understanding. We understand what helps make a practice more efficient. Our understanding helps us design solutions around increasing those efficiencies. In the past few years we did just that by offering a unique online compliance program, scanning technology and a simple to use online ordering process. By understanding your practice we provide useful technology.

Re-Envision Service

How should I be treated?

Trust. After many years of servicing our customers, we know trust is key to mutual success. We always keep this in mind every time you call, email or fax. If something isn't right, we will ensure it gets corrected and communicated. Our commitment to service allows practices to trust that if there is an issue, it will be handled.

SureFit continues to Re-Envision our market so that we are Your Best Fit Forward. For more information, please visit us at www.surefitlab.com

Call SureFit Customer Service or your SureFit Sales Representative to place your order.

SUREFIT - Crush Box

- Our engineered foam captures and reproduces the plantar surface of the patient's foot
- Designed for its ease of handling, cleanliness and unmatched quality
- Easy, reliable 14" mailing carton greatly reduces any potential damages

SUREFIT - Brannock Device

- Used to measure a foot's length, heel-to-ball length and width
- Save time and eliminate guesswork with these accurate, simple, functional and durable devices

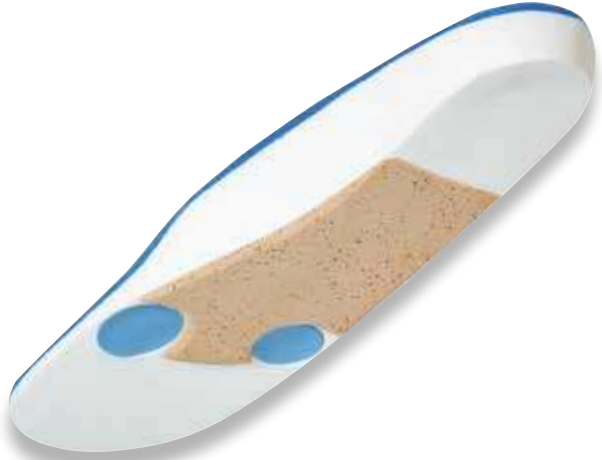

SUREFIT - Custom Cork Shell Orthoses

- Choose top cover of either EVA, Plastazote or leather
- Poron middle layer provides additional cushioning that won't compress or bottom out
- High durometer cork shell provides firm support
- Designed with deep heel cup, medial flange and extended lateral options
- Wide range of accommodations can be ordered to meet patient needs

SUREFIT - Custom Inserts

- Features soft, moldable Plastazote top cover and firm EVA shell
- 3D image of patient's foot captured from foam box impression or plaster cast using laser scanners
- CAD/CAM process mills exact dimension with sufficient arch fill to provide total contact for the life of the device

SureFit Custom Tri-Laminate Insert composed of cork shell, polyurethane layer and flesh-tone Plastazote Cover with hallux toe filler and Charcot relief.

SureFit Custom Tri-Laminate Insert with cork shell, polyurethane layer, blue EVA top cover and transmetatarsal toe filler.

SureFit Custom Bi-Laminate Insert with blue Plastazote top cover, white EVA shell cork lateral wedge and multi-digit toe filler.

SureFit Custom Tri-Laminate Insert composed of EVA shell, polyurethane layer and flesh-tone Plastazote top cover.

SUREFIT - Moldable Inserts

- Integrated into SureFit's patented Fitting System, with 42 sizes and 3 toe shapes available
- High durometer heat moldable EVA base layer designed to achieve and maintain total contact for the life of the device
- Soft EVA top cover provides excellent cushioning

CUSTOM ACCOMMODATIONS

CREST Pad

- Used to raise and off-load distal aspect of hammertoes

DANCER'S Pad

- Used to relieve pressure beneath the first and/or fifth metatarsal heads
- Indicated for cavus foot presentation

METATARSAL Bar

- Square shaped pad extending across metatarsal heads to relieve pressure in a cavus or rheumatoid foot
- Applicable for generalized metatarsalgia or patients metatarsal lesions

METATARSAL Pad

- Pear shaped pad placed behind the central three metatarsal heads to relieve pressure and pain
- Can be ordered in combination with a relief to provide additional off-loading when a severe metatarsal lesion is present

SADDLE Pad

- U shaped pad designed to off-load pressure beneath one of the central metatarsals or bony prominence
- Saddle Pad is placed around cutout when relief is ordered
- Order separate saddle pad ONLY when relief is not ordered

Full Polyurethane Layer

- Polyurethane foam material provides additional shock absorption that does not bottom out
- Order when additional cushioning is required on any location on the plantar aspect of the foot

RELIEF

- Cut out in an insert to relieve pressure on a particular area of the foot
- Can be placed beneath metatarsal, digit or any plantar prominence
- Pocket partially filled with polyurethane to provide additional cushioning; small dispersion pad placed around the lesion to provide additional off-loading
